

Our mission:

Activating and transferring climate-change adaptation knowledge to the local level. Facilitating the implementation of adaptation knowledge in day-to-day business and integrating in ongoing community work and projects. Preparing of information adjusted to the needs of local target groups and key actors. Disseminating information about climate change adaptation in general.

Our pilot region:
Mostviertel, Lower Austria

Our pilot municipalities:

- (1) Ober-Grafendorf
- (2) Mank
- (3) Kirchberg an der Pielach
- (4) Scheibbs
- (5) Frankenfels
- (6) Gaming
- (7) Lunz am See

Our website:

www.klimabuendnis.at/
[wandelbares.mostviertel](http://wandelbares.mostviertel.at/)

The Ötscher mountain, located in the south of Mostviertel, is the region's highest peak, at almost 2,000 m.

| 10/2014 final conference e.g. in Frankenfels (Laubenbachmühle) | <p>EVENT</p> <ul style="list-style-type: none"> expert key notes (UBA, project partners, e.g. Prof. Helga Kromp-Kolb) presentation of project results by municipalities press conference with provincial councillor |

Addressing the needs of the municipalities!
 Addressing topics close to the heart of actors!
 Taking mainly no-regret-measures!

Our pilot municipalities topics:

| municipality | focus on (in context to climate change adaptation) | affected sectors | main target groups | expected results 2014 |
|--------------------------|--|---|--|---|
| Frankenfels | inter-generational responsibility in times of climate change | social affairs energy tourism | citizens esp. the young | concepts for education and tourism |
| Gaming | appreciation of forests and their functions in times of climate change | forestry | citizens pupils tourists | set of measures |
| Kirchberg an der Pielach | energy-efficiency-model-municipality | energy spatial planning | municipal - administration citizens esp. the young | |
| Lunz am See | local supply in a broader sense in times of climate change | tourism social affairs | tourists citizens | mission statement |
| Mank | energy-self-sufficiency and spatial planning | energy | municipal - administration citizens | set of measures |
| Ober-Grafendorf | food sovereignty and soil conservation | agriculture | citizens farmers | mission statement or concept for food sovereignty |
| Scheibbs | securing of food, water and energy in times of climate change | agriculture water management energy | citizens | mission statement |

Our goal:
